Friday, April 19, 2024 at 8:00am ET - 4:00pm ET

i All times listed in Eastern Time (US & Canada).

Friday, April 19, 2024

8:00am - 4:00pm

Intermediate Fetal Monitoring

Joanne Gunderson MSN, RNC-NIC, C-EFM, NPD-BC

11.25 CE Credits

Intermediate Fetal Monitoring Course

This course addresses principles of fetal heart monitoring and may be used as a knowledge assessment tool to validate the comprehension of experienced perinatal clinicians. This course includes lectures and hands-on skill stations, including performing Leopold maneuvers, placement of an intrauterine pressure catheter and fetal spiral electrode, interpretation of fetal monitoring tracings using a case-based approach, identification of physiologically based clinical interventions, and communication and risk management principles. This course can be used to support preparation for certification examinations.

Learning Outcomes:

Interpret fetal heart rate monitoring using NICHD terminology within a safety culture framework of interdisciplinary teamwork

Describe clinical interventions and related maternal-fetal physiology to optimize fetal oxygenation

Demonstrate collaborative communication in the perinatal setting

Demonstrate common perinatal procedures related to fetal monitoring

Nursing Contact Hours/CME Credit: 11.25

Successful completion of online prerequisite education is required prior to attending the one day in person skills day.

Intermediate Fetal Monitoring Course materials - Student workbook 7th Edition may be purchased on the AWHONN website, or directly through the Kendal Hunt Publishing Company #800-338-8290.

Prerequisite online learning is approximately three hours.

In person is eight hours and includes time for lunch and breaks.
